

STROBOSCOPE DISC No. 30-228

16 2/3 RPM

45 RPM

OPERATING INSTRUCTIONS

In addition to exact speed markings for the four standard photograph speeds, this strobe has adjacent markings showing a plus and minus 2% and a plus and minus 4% speed deviation. These indicators within a plus or minus range of "standard" speed, properly functioning equipment will operate within a plus or minus 2% range of "standard" speed. Excessive deviation, particularly if in excess of 4% indicates need for lubrication, replacement of pulleys, etc. (Continued from other side)
